2026

RADIO & TELEVISION, DIGITAL BROADCASTING EQUIPMENT AND FILM PRODUCTION, SOUND & LIGHTING TECHNOLOGIES FAIR

OCTOBER 22–25, 2026

Istanbul Yenikapı Exhibition Center

EXPOLIVE
FUARCILIK HİZMETLERİ

Dear Participant

We would like to thank you for your interest in and participation in **BROADCASTEX 2026, Radio & Television, Digital Broadcasting Equipment and Film Production, Sound & Lighting Technologies Fair**. We are delighted to welcome you to one of the industry's most important gathering places.

Cleaning Services

Cleaning services for the exhibition hall will be provided by a professional cleaning company.

Areas of Responsibility

- General exhibition area
- Aisles
- Common areas
- Restrooms

IMPORTANT: The cleaning crew is strictly prohibited from entering the booths.
We ask that our participating companies take the necessary precautions in this regard.

Electricity Requests and Notification Process

Companies participating with standard or custom booths must notify our organizing team of their electricity requirements and usage details for the duration of the trade show by the end of business hours on Friday, **September 18, 2026**, at the latest.

Failure to report electricity requirements accurately or reporting them incorrectly can cause circuit breakers to trip and affect other booths connected to the same circuit. Therefore, it is important to accurately calculate the total power requirements of all electrical devices to be used.

Information that must be reported:

- Total electrical power (kW)
- Single-phase / three-phase requirements
- Type, number, and power ratings of the devices to be used
- Number of outlets and their locations within the stand
- Uninterrupted power supply requirements
- Any special connection or technical requirements, if applicable

Our participants must fill out the Standard Booth or Custom Booth Electrical Request Form that applies to them and submit it by the deadline.

IMPORTANT: The organization is not responsible for technical issues arising from incomplete or late requests.

The locations of electrical connections and outlets must be marked on the booth layout plan and submitted.

Technical staff will be on site throughout the fair to address electrical connections and technical issues.

Electricity charge: 1 kW / 1,500 TL + VAT

ID Card Registration Procedures

All participating companies will be sent a unique password to log in to the system at **www.expolive.com.tr** .

Companies must log in to the system using this password via the link provided below and fill out the name badge forms for the staff members who will be working at the trade show.

Broadcastex Participant Registration

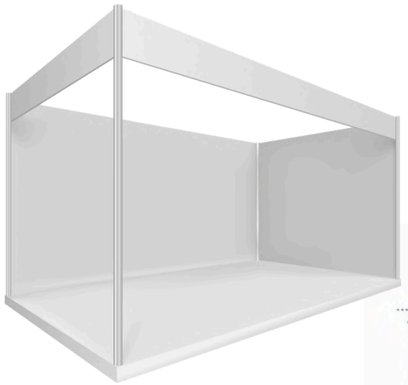

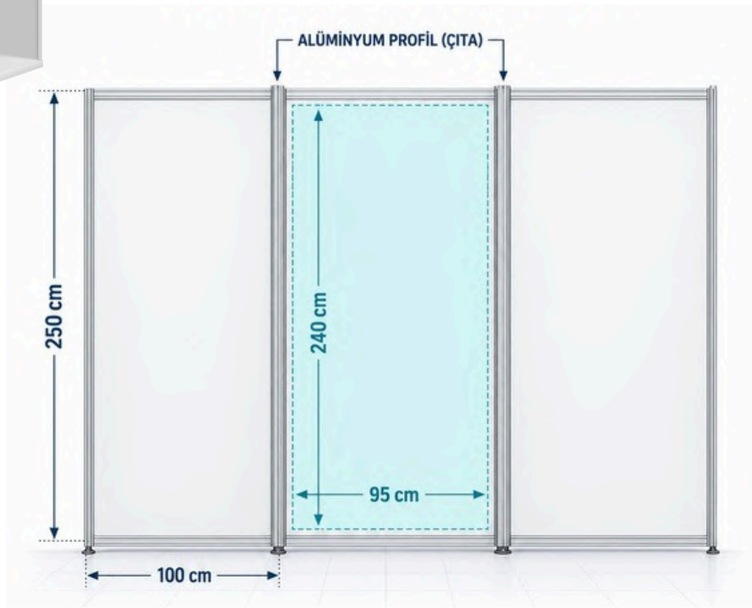

Note: When you log in to the participant portal, you can upload your logos and enter all information about your company.

Package Display Example

An example of a package display is shown in the image.

Panel Printing Dimensions

Each stand panel is 2.50 meters high and 1 meter wide.
Between the panels are Octanorm aluminum profiles (rails) that connect the panels to one another.

To ensure that the prints do not overlap these profiles and can be applied properly, print files must be prepared according to the following exact dimensions:

Net print dimensions per panel: 240 cm height × 95 cm width

For designs spanning multiple panels, the artwork for each panel must be prepared separately at 240 × 95 cm; important text, logos, and images should not be placed at the panel joints.

GROSS PANEL SIZE
250 cm Height × 100 cm Width

NET PRINT SIZE
240 cm Height × 95 cm Width

Exhibition Booth Design and Installation

Our Official Booth Partners

The official booth design firm for our trade show is **HTM MİMARLIK**. Our organization has no agreement with any other booth design firm.

Companies creating custom booths are required to share their designs with HTM MİMARLIK. Booth designs must be submitted no later than **October 5, 2026**.

- Tuesday, October 20, 2026 - Open to vehicle entry 24 hours a day
- Wednesday, October 21, 2026 - 4:00 PM: Last hour for vehicle entry
- Wednesday, October 21, 2026 - 9:00 PM: Delivery of ready-to-use booths
- Thursday, October 22, 2026 - 11:00 AM: Official opening of the fair
- Sunday, October 25, 2026 - 8:00 PM: Start of booth dismantling
- Monday, October 26, 2026 - 6:00 AM: End of booth dismantling

NOTE: SINCE THE BOOTHS OF OUR COMPANIES PARTICIPATING WITH A STANDARD BOOTH WILL BE DELIVERED ON WEDNESDAY, **OCTOBER 21, 2026, AT 9:00 PM,** THEY MUST PLAN THE SHIPMENT OF THEIR PRODUCTS ACCORDING TO THIS DATE AND TIME.

Security Services

Security services at the exhibition grounds will be provided 24 hours a day, nonstop, by the venue’s professional security team.

We recommend that our participants take the necessary precautions to protect their valuable equipment.

Noise (Decibels) Usage Rules

- Making noise within the exhibition hall is strictly prohibited.
- The noise level limit is 85 dB.
- Instrument companies are required to use the soundproof rooms within the exhibition hall.
- Companies wishing to conduct audio demonstrations must use the outdoor stage.
- Use of the stage will be conducted in accordance with the program and schedule prepared by the organizers.
- All participants are required to strictly adhere to the established rules and schedules.
